

Experience the Art:

Have a parent or friend come along. They will be helpful in making you feel relaxed.

Girls... Please keep make-up simple. Bring your make-up and hair supplies. Light retouching can be done to final images to help with complexion problems. **Make sure all clothes are wrinkle free (on hangers if possible).** Don't forget shoes and accessories. If in doubt, bring it. Think simple, classic black & whites and solids are always recommended. **Always bring an ironed white dress shirt of some type.** Bring a variety of outfits from dressy to casual, traditional to funky. Some suggestions might be; sweaters, sundress, shorts, leather jackets, denim jackets, hats and sports uniforms. Don't forget your favorite outfits! **Watch out for tan lines and get plenty of sleep the night before.**

Guys... Bring a wide variety. Wear solid, medium-tones, plain t-shirts, long sleeved dark shirts. **Always bring an ironed white long sleeve dress shirt.** Jeans, leather or denim jackets, sports coats, sports uniforms and hats are great. **DO NOT WEAR** - anything with stripes or bold patterns, sweaters or t-shirts with logos, words or pictures. **Come clean-shaven.** If you are wearing glasses for your pictures, have your optometrist take the glass out of your frames. It makes it easier to eliminate glare. **Watch out for sunburn or tan lines at least a few days before your session.**

How & when do I see my images?

We will schedule a viewing appointment for you to view your images (about 3-5 days after your session) at our studio. We will help you with your decisions and show you the various sizes, retouching and finishing options. **The viewing appointment takes about 2 hours. Whoever comes must have the authority to make all ordering decisions without having to get approval from someone who is not present. If the viewing appointment is missed or another one is needed, a presentation fee will be charged.**
